Special Features of the UN Model Convention Anna Binder, Viktoria Wöhrer, 2019-10-01. Detailed research on the UN Model Convention's unique features. The UN Model Convention has a significant influence on international tax treaty practice and is especially used by emerging and developing countries as a starting point for treaty negotiations. Driven by the aim to achieve consistency in the international tax treaty practice, the structure and content is to a large extent similar in the UN Model and the OECD Model. However, whereas the OECD has historically focused its efforts on

issues mainly relevant for developed countries the UN Tax Committee has continuously attempted to specifically take into account tax treaty policies for developing countries when drafting and amending the UN Model Convention Compared to the OECD Model Convention the UN Model Convention aims at giving more weight to the source principle Popular examples are the PE definition in the UN Model which provides for a lower threshold than Article 5 of the OECD Model or Article 12A on Fees for Technical Services which has been introduced with the latest amendment of the UN Model Convention 2017 and allows for a withholding tax to be levied on payments to non residents when the payer of the fee is a resident of that contracting State irrespective of where the services are provided Interestingly in the discussions of the tax challenges arising from the digitalization of the economy the OECD and the G20 are also exploring options to allocate more taxing rights to the jurisdiction of the customer and or user i e the market jurisdictions As this has traditionally been the focus of the UN Model Convention its unique features and developing countries practices could be taken into account when exploring new nexus rules that are not constrained by the physical presence requirement This book contains the master s theses of the full time LL M program 2018 2019 for which Special Features of the UN Model Convention has been chosen as the general topic With this book the authors and editors do not aim at discussing each article of the UN Model Convention but rather focus on the unique features of the UN Model Convention which are explored in detail This is supplemented with an evaluation of the function and relevance of the UN Tax Committee in the international tax policy discussion and with an analysis of the influences of the OECD s BEPS project on the UN Model

he OECD s BEPS project on the UN Model Tax Treaties and Domestic Law Guglielmo Maisto,2006 This book analyses the relationships between tax treaties and domestic law from a constitutional and an international point of view and how they can be improved in the fields of treaty override treaty residence and anti abuse measures It also shows how the issues raised by these relationships are resolved by tax administrations and courts in selected European and non European countries *OECD Tax Policy Studies Taxation and Philanthropy* OECD,2020-11-26 This report provides a detailed review of the tax treatment of philanthropic entities and philanthropic giving in 40 OECD member and participating countries **OECD/G20 Base Erosion and Profit Shifting Project Making Dispute Resolution More Effective - MAP Peer Review Report, the Cayman Islands (Stage 1) Inclusive Framework on BEPS: Action 14** OECD,2020-07-27 This report reflects the outcome of the Stage 1 peer review of the implementation of the Action 14 Minimum Standard by the Cayman Islands **OECD/G20 Base Erosion and Profit Shifting Project Making Dispute Resolution More Effective - MAP Peer Review Report, Bahrain (Stage 1) Inclusive Framework on BEPS: Action 14** OECD,2021-02-16 This report reflects the outcome of the Stage 1 peer monitoring of the implementation of the Action 14 Minimum Standard by Bahrain **OECD/G20 Base Erosion and Profit Shifting Project Making Dispute Resolution More Effective - MAP Peer Review Report, Serbia (Stage 1) Inclusive Framework on BEPS: Action 14** OECD,2020-02-24 This report reflects the outcome of the stage 1 peer review of the

implementation of the Action 14 Minimum Standard by Serbia *Handbook of EU Competition Law* Walter Frenz, 2015-12-18 This handbook offers detailed descriptions of EU competition law including mergers and public authorities. Above all, it analyzes and discusses recent decisions of the ECJ and the General Court. Presenting systematically structured and theoretically founded content, the book also includes recommendations for practitioners. Special attention is paid to the scope of penalties and the influence on fundamental rights. Rounding out the book, the conflict between safeguarding confidential information and the effectiveness of private and public enforcement is discussed intensively in the context of the new Directive 2014/104/EU.
